

KAREN'S VISIT TO 2016.8.4

Karen

on the go!

MB More is the first gallery-store in Taiwan for print making art, providing space for exhibition and handmade print making associated products. There is also a studio on the second floor for print making.

The founder Mr. Lin is also a well-known artist for print making, public art, graphic design and 3D contouring. He welcomed us with black tea and warm greetings, and introduced the space and the running of the gallery store.

The exhibition displaying at the moment is titled as Black Hydrangea by the artist Yang Cheng Hua (楊振華).

Photo with Mr. Lin Ren Shin and his assistant Ms. Su.

Up to the second floor, there is a studio where different print making classes and workshops are held.

Mr. Lin showed us a lot of his works and technics he has used before; even some kitchen stuff can be a part of print making too!

Karen is very impressed by all the neat scripts and ideas, especially the butterfly print work by Mr. Lin.

After a happy afternoon meet up, with the kind offer from Mr. Lin, Karen decided to hold her artist talk at MB More on August 28th! we all looking forward to this great event!
